Employment, Income & Poverty, 2006: Orange County

Labor Force

- Orange County's labor force, including employed and unemployed workers seeking employment, totaled 67,975 in 2006.
- The county's labor force rose by 4.9% between 2000 and 2006.

Unemployment

- Orange County's unemployment rate averaged 3.3% in 2006, compared to a statewide figure of 4.8%.
- Orange County's unemployment rate was higher in 2006, than it was in 2000.
- Some 2,273 people were unemployed and actively seeking work in Orange County in 2006, up from 1,638 people in 2000.

Income & Poverty

- Median household income in Orange County equaled \$46,114 in 2006 – an amount equivalent to 108.2% of the statewide figure.
- The county's per capita income of \$30,856 was \$7,911 more than the statewide level.
- The county's poverty rate of 13.9% was less than the statewide level of 14.7 percent.
- All together, 31.7% of the county's residents had incomes less than twice the federal poverty level (\$41,228 for a family of four).

Job Projections

- The Orange County area is expected to gain 56,208 jobs between 2004 and 2014.
- Most of the jobs expected to add the most positions (e.g. cashiers, retail salespersons) offer low wages, few benefits and little upward mobility.
- The jobs expected to grow the most in percentage terms, like those in health fields, typically pay good wages but require workers with some type of postsecondary credential.
- Some 38% of the county's adults possessed no more than a high school degree in 2005.

Living Income Standard

- A working family with children needs to earn, on average, a total of \$21.71/hour to cover basic living expenses in Orange County.
